

Summer ORISE Fellowship Opportunity at the CDC

Program Description

A fellowship opportunity is available to support the Office of Information Technology and Information Services, National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC), in Hyattsville, Maryland.

The student will learn how to integrate products and services used to disseminate and process information. Specific training areas include the design, development and debugging of products that promote information dissemination and statistical computing.

Training activity includes maintenance and publishing of web sites, assisting in the creation of information catalogs as input to metadata resources, testing/troubleshooting web services, integration of web services to enable timely release of data and improved quality of data, updates to code/script used to process and test data, and Section 508 updates for publications.

* Desired Start Date: June 1, 2017 *

* Length of appointment: 3 months *

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment is for 3 months, but may be renewed upon recommendation of CDC contingent on the availability of funds. The participant will receive a monthly stipend commensurate with educational level and experience. Proof of health insurance is required for participation in this program. The appointment is full-time at CDC in the Hyattsville, Maryland area. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits.

Qualifications

- High school student or Undergraduate with a GPA of 3.0 or higher
- Knowledge of Microsoft Professional products
