

PRIME LABEL CONSULTANTS, INC. is looking for interns this summer! Get a start on your career by interning with the leading USDA and FDA labeling consultants. You will gain invaluable knowledge of the food industry and government food-labeling regulations.

This paid internship involves learning how to pre-screen Food and Beverage labels for regulatory compliance. You will speak with clients about their labels, work alongside Prime Label’s food technologists, and explore the possibilities of your future food science or nutrition career. Many of Prime Label’s food technologists have continued on to major careers in government and the food industry—and many of them began as Prime Label interns!

We are looking for interns who can commit to working 40 hours/week, Monday-Friday. Our office is located in Capitol Hill, DC (near Eastern Market Metro).

If you are interested in learning more about this opportunity, please send your resume to:
